

TRANSPLANT SPOR↑

WHO WE ARE

We are the largest transplant charity, promoting active recovery for transplant patients and increasing awareness of the benefits of organ donation and transplantation.

WHAT WE DO

We organise sport and social events for members to connect with others who have had a transplant. We encourage you to get fit and active whilst celebrating your return to health.

WHY WE DO IT

Post-transplant fitness is essential for a healthy future. Our events help members to engage in sport and social activity whilst promoting the organ donor register. Members get to enjoy the gift of life they have received, and share experiences with each other.

If you would like to learn more about Transplant Sport membership benefits, become a member or donate to the charity,
